

We are a metalworking, steadily growing family business in the field of cold forming/mechanical engineering and employ 50 people in a modern plant at Bremen Airport. In cold forming, we produce raw parts for the building trade and the automotive supply industry in three-shift operation. In the mechanical engineering division, we manufacture product-specific systems for mass production.

We are looking for the fastest possible entry:

Mechatronics technician or industrial electronics technician (m/f/d)

Your tasks with us:

- Manufacturing parts and assemblies for machines and production systems
- Maintenance, servicing and repair of machines and machine components
- Assembly and testing of pneumatic, hydraulic and electrical systems
- Assembly and disassembly of machines, systems and plants

Your knowledge and skills:

- Completed vocational training in the field of electronics or mechatronics
- Mechanical knowledge is an advantage
- Willingness to acquire mechanical knowledge and apply it in practice
- Professional experience is desirable, but not essential
- Creativity and enjoyment of working independently

We offer you:

- A permanent employment contract
- A modern, varied and secure job in an expanding company
- A reliable employer and a pleasant working environment in a well-coordinated team
- A conveniently located company that is easy to reach by public transport
- Subsidised company benefits such as a company fitness programme
- Company pension scheme
- Regular employee events
- Free company car park
- Work clothes are provided and laundered
- Free coffee and water

Do you have any questions? Or would you like to apply directly?

Then simply contact Mrs Beckmann on +49 421-5571671 or send your complete application documents including salary expectations to:
