

We are a metalworking, steadily growing family business in the field of cold forming/mechanical engineering and employ 50 people in a modern plant at Bremen Airport. In cold forming, we produce raw parts for the building trade and the automotive supply industry in three-shift operation. In the mechanical engineering division, we manufacture product-specific systems for mass production.

We are looking for someone to join our production department as soon as possible:

Working student (m/f/d)

Your tasks with us:

- Set-up, changeover and support of automatic lathes and milling machines
- Production of drill blanks according to drawings
- Material supply and disposal at the machines
- Quality control and documentation
- Supervision of washing and vibratory grinding systems
- General labourer activities

Your knowledge and skills:

- Enrolled full-time student, preferably from a technical discipline
- Experience in metalworking or in a manufacturing company is an advantage
- Forklift licence is desirable, but not a requirement
- Willingness to work in three shifts
- Creativity and enjoy working independently

We offer you:

- A modern, varied and secure job in an expanding company
- A reliable employer and a pleasant working environment in a well-coordinated team
- A conveniently located company that is easy to reach by public transport
- Regular employee events
- Free company car park
- Free coffee and water

Do you have any questions? Or would you like to apply directly?

Then simply contact Mrs Beckmann on +49 421-5571671 or send your complete application documents to:

Mac Panther GmbH
Hanna-Kunath-Str. 19
28199 Bremen
